PARTNERONE CPL PLUS

What is PartnerOne CPL Plus?

- PartnerOne CPL Plus is a combined Pollution/Professional Liability form offered through the PartnerOne Environmental program from Beacon Hill Associates. It provides coverage to general contractors, construction managers, and various trade contractors.
- PartnerOne CPL Plus coverage is offered by carriers rated "A" or better.
- Available product enhancements include: Occurrence CPL coverage, Natural Resources Damage, coverage for subcontracted work, Mold coverage, Blanket Additional Insured, Waiver of Subrogation, and Transportation Pollution Liability.

Why is PartnerOne CPL Plus Important?

- Because PartnerOne CPL Plus is quoted, bound, and issued via Beacon Hill's in-house PartnerOne Environmental underwriting division, enabling us to offer fast turnarounds and excellent service.
- Because contractors face professional liability issues from construction management services, job site modifications, and other daily activities.
- Because these professional exposures are generally excluded from General Liability and monoline Contractors Pollution Liability policies.
- Because coverage starts at \$5,000 plus applicable taxes and fees.

Who is the Target Customer for PartnerOne CPL Plus?

- General Contractors
- Construction Managers
- Plumbing Contractors
- HVAC/Mechanical Contractors
- Electrical Contractors
- Site Prep Contractors
- Pipeline Contractors
- Millwright Contractors
- Any contractors that, in the course of their normal operations, may make a slight adjustment on the provided plans to get the job done properly, or who supervise other subcontractors.
